

The best Zoom background image size is 1920px by 1080px.

Keep the file under 5MB in size.

Accepted files when you save are
JPG/JPEG, 24-bit PNG or GIF

1920px

Make sure the QR code is easy for guests to scan by ensuring it is:

- Clear and bold
- Good resolution
- In any visible corner of your background

It is good practice to include simple instruction next to your QR code so that guests can support you at any time during the call.

If you can, verbally mention the QR code; why it's there and what their support means to you.

Help us help others
Scan the QR code

- **Open your smartphone camera or QR app**
- **Hover over the QR**
- **Click the pop-up**
- **Donate in seconds**

Add your company logo in a visible corner. Expand your brand identity.

1080px

Keep the middle section clear.
